

# Kindergarten Summer Reading List 2009

Kindergarten families,

Here is the list of authors for summer reading. These are just suggestions, feel free to add others. Reading stories together is a great way to improve your child's learning, especially getting ready to read. "A child needs to hear 1000 stories before they can begin learn to read." (Mem Fox) Read the stories aloud, read the stories together, have your child read to you. However you do it the important thing is to just read, each day and have fun. See you in September.
